

Creating a Successful Path: Employment and Transition Webinars

ADDPC partnered with the DD Network and the Arizona APSE Chapter and hosted a series of six Employment and Transition webinars for transition professionals, educators, self advocates and families, and employment support professionals. The webinars began April 14 and ended September 8, 2022. ADDPC is proud to announce 529 individuals participated in the webinars, in addition there are 701 total views on YouTube and 126 completed surveys. The webinars are archived on the ADDPC website [Creating A Successful Path](#). The partnership that was created has been so successful the partners have decided to continue to work together and collaborate on National Disability Employment Awareness Month (NDEAM) during the month of October and beyond.
