

Alzheimer's Disease and Down Syndrome Connection

April 15, 2016

10 am to 3 pm

East Valley

Institute of Technology

Mesa

FREE lunch included

ONE Community Working Together

The Alzheimer's - Down Syndrome Connection!

Alzheimer's disease and Down syndrome share a genetic connection, leading to the increased risk of dementia at an earlier age. Getting accurate information and education about the risk of Alzheimer's disease is an important way of empowering oneself to prepare for the future.

Learn about the connection between Alzheimer's disease and Down syndrome, the importance of research and clinical trials and an introduction to caregiving principles in the setting of dementia plus local resources to help with this journey.

Featuring Presentations By:

- Dr. Marwan Sabbagh, MD, FAAN – CCRI, *Barrow Neurological Institute*
- Mathew Huentelman, PhD – *The Translational Genomics Research Institute*
- David W. Coon, PhD – *ASU School of Nursing and Health Care Innovation*
- Sarah Ruf – *Community Relations Specialist, AZ Developmental Disability Planning Council*

RSVP by April 12th!
