Definitions:

Assistive Technology Device: Means any item, piece of equipment, or product system, whether acquired commercially, modified or customized, that is used to increase, maintain, or improve functional capabilities of individuals with developmental disabilities.

Culturally Competent: The term is used with respect to services, supports, or other assistance, means services, supports, other assistance that is conducted or provided in a manner that is responsive to the beliefs, interpersonal styles, attitudes, language, and behaviors of individuals who receiving the services, supports, or other assistance, and in a manner that has the greatest likelihood of ensuring their maximum participation in the program involved.

Culture of Inclusion: Means the acceptance and encouragement of the presence and participation of individuals with developmental disabilities, by individuals without disabilities, in social, educational, work, and community activities.

Developmental Disability (DD): From the DD Act of 2000, a developmental disability is a severe, chronic disability that occurs before an individual is 22 that is likely to continue indefinitely and results in substantial functional limitations in three or more of the following areas: self-care, receptive and expressive language, learning, mobility, self-direction, capacity

for independent living, and economic self-sufficiency. Diagnosed conditions may include autism, Down syndrome, intellectual disability, cerebral palsy, spina bifida, epilepsy, and others.

Disability Culture: "Disability culture" is a term referring to a wide variety of movements and subcultures that promote the idea that disability can be part of one's identity. As a general rule, people who adopt disability as part of their identities do so as a way to express happiness and pride in who they are, and to talk back against societal norms that often tell them that they are "broken," or need to be "cured." <http://sudcc.syr.edu/>. Through disabilities culture, people with disabilities forge a group identity. They share a common history of oppression and a common bond of resilience. They generate art, music, literature, and other expressions of their lives and their culture, infused from their own experience of disability. They believe it is their destiny to demonstrate to mainstream society that it is to society's benefit to receive the knowledge and experience they offer. <https://www.independentliving.org/newsletter/12-01.html#anchor1>.

Intellectual Disability (ID): According to the National Institute of Health, intellectual disability is a type of developmental disability. ID starts any time before a child turns 18 and is characterized by problems with: intellectual functioning or intelligence, which includes the ability to learn, reason, problem solve, and other skills; and adaptive behavior, which includes everyday social and life skills. An example of an intellectual disability is Down syndrome.

Intellectual/Developmental Disability (I/DD): Refers to an intellectual or other developmental disability.

Natural Supports: Natural supports are methods of inclusion and assistance that exist in a postsecondary institution setting and one that a student with a disability can tap into. These supports help the student while in school, and to feel socially included which is crucial for inclusion and success.

Universal Design (UD): According to the Office of Disability Employment Policy (ODEP), Universal Design is a strategy for making products, environments, operational systems, and services welcoming and usable to the most diverse range of people possible. Its key principles are simplicity, flexibility, and efficiency. Originally developed in response to the needs of the aging population and people with disabilities, UD has much broader applicability for a diverse population. Using Universal Design means that facilities, programs, and services consider the broad range of abilities, ages, reading levels, learning styles, languages, and cultures in their diverse workforce and customer base.

Budget Development Guidelines to Develop Budget Request Form and Narrative

The purpose of the budget narrative is to support the proposed project, and provide more clarity and detail on the various budget line items that funds are being requested for. The budget narrative should explain the criteria used to compute the budget figures on the budget form. The Budget Request Form and Budget Narrative shall not exceed 12 months of requested funding.

A budget narrative should also include Match, by listing each Matching Funds Source. Please verify that the narrative and budget request form correspond and the calculations and totals are accurate. This is a federal requirement per the DD Act.

The budget request form and budget narrative shall be in accordance with the Office of Management and Budget (OMB). It is the responsibility of the Applicant to know and understand the applicable circular and basic guidelines for allow-ability of costs.

The ADDPC reserves the right to ask the applicant for a revised budget summary, narrative and matching costs during contract clarifications. The ADDPC will review all costs that are proposed in the Budget Request Form and Narrative. Therefore, please be as accurate as possible. Of special concern are these costs that are Allowable and Non-Allowable as defined by the requirements of the Uniform Administrative Requirements, Cost Principles, and Audit Requirements for **HHS Awards under 45 CFR Part 75**. These requirements can be found on the U.S. Government Publishing Office website:

<https://www.gpo.gov/fdsys/granule/CFR-2016-title45-vol1/CFR-2016-title45-vol1-part75/content-detail.html>

Personnel/Salaries: Include information such as position title(s), name of employee (if known), salary, time to be spent on this program (hours or %), number of months assigned to this program, etc. If you need additional fiscal personnel to manage this grant, include those costs also. Explain how the salary rate for each position was determined. If salaries are expected to increase during the project year, indicate the percentage increases for each position and justify the percent of the salary increase. Also be sure to include the scheduled salary increases on the Budget Form.

All organizations that receive Federal funds are required to maintain appropriate documentation to support salaries and wages. All organizations will be monitored to assure compliance with this requirement. Please review the appropriate Federal Cost Principal and OMB Circular for your organization.

Fringe Benefits: Include a benefit percentage and what expenses make up employee benefit costs. Indicate any special rates for part-time employees, if applicable. Explain how the benefits for each position were determined. If using a fringe benefit rate, explain how this percentage is justified or approved by your agency.

Supplies/Operating Expenses: Explain each supply item to be purchased, how the costs were determined and justify the need for the items. Items with a unit cost less than \$5,000 are considered supplies and should be listed in this category. All purchases should be made according to the Applicant's written procurement policy, which at a minimum must contain the federal procurement guidelines for federal grants.

Travel: Travel costs are according to the State of Arizona Accounting Manual (SAAM), Travel written policy and can be located at <https://gao.az.gov/travel>. Include a detailed breakdown of hotel, transportation, meal costs, etc. Indicate the location(s) of travel and the justification for travel, how many employees will attend and how the estimates have been determined. Explain the relationship of each cost item to the project (e.g., if training or training expenses are requested, explain the topic of the training and its relationship to the project). The ADDPC reserves the right to determine the reasonableness of the applicants proposed travel costs, in accordance with the State of Arizona Accounting Manual (SAAM) Travel written policy.

Rent or Cost of Space: Costs for rental space are allowable to the extent that the rates are reasonable in light of such factors as: rental costs of comparable property, if any; market conditions in the area; alternatives available; and the type, life expectancy, condition, and value of the property leased. Define how the cost for rental space was determined and the justification for charging the cost to the grant.

Contracted Services / Professional Services: If contracted services/professional services are proposed in the budget, define how the costs for these services were determined and provide the justification for the services related to the project. This category may also include Evaluation Services. Information for Evaluation Professional Services should include who will be performing the evaluation, the type of work to be performed, and how the rates and other costs are determined. Explain how all contracts will be procured.

Administrative / Indirect Costs: The ADDPC has authority to cap all Administrative/Indirect Costs to 10% regardless of the Applicants internal policy. Administrative costs are general or centralized expenses of overall administration of an organization that receives grant funds and does not include particular project costs. These costs may include direct charges for: costs of financial, accounting, auditing, contracting or general legal services; costs of internal evaluation, including overall organization's management improvement costs; and costs of general liability insurance that protects

the organization(s) responsible for operating a project, other than insurance costs solely attributable to the project.

For organizations that have an established federally approved indirect cost rate for federal awards, indirect costs mean those costs that are included in the organization's indirect cost rate. Such costs are generally identified with the organization's overall operation and are further described in the Office of Management and Budget Circulars 2 CFR 220, 2 CFR 225, and 2 CFR 230.

If the applicant's written allocation policy for indirect costs OR the federally approved indirect cost rate agreement is not provided with the application (new or renewal funding), the ADDPC has the right to deny approving Administrative Costs.

Applicants may choose Option A OR Option B.

Option A: Internal Organizational Policy: With proper justification, Applicants may include an allocation for administrative costs for up to 10% of the total direct funds requested of the grant request. If you chose Option A, provide a listing of the items included in this category and a copy of the written allocation policy for these costs.

Option B: Federally Approved Indirect Costs: If your organization has a federally approved indirect cost rate agreement in place, Applicants are only allowed to include an allocation for indirect costs for up to 10% of the grant request. The forgone costs (difference between the ADDPC 10% cap and the approved Indirect Rate) can be used as Match towards the project. Applicants must provide a recent copy of their federally approved indirect cost rate agreement with the application.

Match: Per the DD Act-Section 126(a)(1) and Section 126 (a)(2), Applicants shall contribute 25% Match towards the total program costs, either in the form of Cash or In-Kind. The ADDPC will fund 75% of the total program costs; therefore it is the responsibility of the Applicant to come up with the remaining Match dollars to fund the full program costs. Match is a requirement to show in your budget summary and budget narrative and must be accounted for in supporting documentation.

a) What is **NOT** considered Match:

- 1) Applicants are prohibited from using other federal dollars that are currently awarded to the applicant as Match towards the requested total program costs.
- 2) Applicants are prohibited from using a source of funds that is already designated as Match towards an existing program and applying it as Match towards the proposed project.

3) Example of Match Calculation with the required **25% cash or in-kind**:

Step 1: $\$40,000$ (requested amount) / $.75 = \$53,333$ (total project cost).

Step 2: $\$53,333$ (total project costs) - $\$40,000$ (requested amount) = $\$13,333$ (total match requirement).
