

Arizona Developmental Disabilities Planning Council Legislative Update: May 20, 2016

Final Update for the 2016 Legislative Session

We continue to monitor through this week, the last actions as well as the final act of adding the Governor's signature, to the remaining Bills that are under review for consideration by the Office of the Governor. Please see our final charting at the end of this report for these last details and easy reference to those key items passed into law that will have either a direct or indirect impact on Arizona citizens with developmental disabilities. We have also recapped below the financial and budget decisions and the long-term program impact in the areas of child welfare and K-12 schools for easy review:

Child Welfare

\$116M two-year investment in child safety including:

- a) \$2.7M this year and next year – outside contractors will help with case back logs concerning abuse and neglect;
- b) \$13.8M for investigations and operations;
- c) \$10.3M for out of home placements in foster homes;
- d) \$12.5M for out of home support services growth;
- e) \$8M for emergency and residential placement;
- f) \$2M for foster families;
- g) \$5M for preventative services for families;
- h) \$6.4M for adoptive families;
- i) \$2M for child-care growth.

K-12 Schools

- a) If Proposition 123 does not pass – schools could lose about half a billion dollars; this includes \$224M this year/\$230M next year;
- b) If Proposition 123 passes, schools will get the additional \$224M/\$230M listed above.

As we move to press this week, the advocates of Prop 123 have declared a victory with the vote counting ahead on behalf of this proposition by about 16,000 votes in favor of this item. Final details continue to be forthcoming.

Another notable Bill is **H2375–Therapy Dogs**. This Bill requires Courts to allow juvenile crime victims to bring a ‘facility dog’ with them while they testify in court and allows the court to do the same for witnesses of all ages and adult victims. This law expands the program that has been used by the Maricopa County Attorney’s Office for the last five (5) years statewide.

It has been a privilege to support the work of the Arizona Developmental Disabilities Planning Council both before and throughout the 2016 Legislative session in the area of government relations. The needs and concerns of the developmental disability community have been heard by our elected body.

You may be interested in following more closely one or more of the Bills that are of special interest to you or that may have an impact on you, a family member, a friend, or neighbor in the future. If you want to begin doing this, simply type the address www.azleg.gov into your computer ‘internet browser’ (the main block at the top of your computer screen), or search for the phrase ‘Arizona State Legislature’ and click on the link to the official AZ Legislature website (usually the first result).

Advocacy

We have listed below some key ways to share your views about issues that are impacting you not only during each Legislative session but also during the year.

We urge our supporters to assist these efforts by communicating regularly with their district representatives on the needs of persons with developmental disabilities. There are various ways you can contact your state House or Senate representative at the state legislature:

1. Writing a Constituent Letter

Helpful Tips:

- Use personal or business letterhead if possible.
- Be brief – ideally no longer than one page.

- Be specific in your request – express clearly and briefly what action you would like the recipient to take, such as supporting passage of a specific measure. Include bill numbers or other reference information where possible.
- Be reasonable and constructive – if you oppose a measure, state clearly why the measure is a concern. If possible, offer an alternative. Include examples or data where possible.
- Ask the recipient to provide his/her position in a written reply.
- Be sure to thank the recipient if he/she responds positively.

2. E-mail Messages

This is an effective way to voice your views on an upcoming vote or other key decision. Please be aware that state officials receive a high volume of messages that may take time to wade through, affecting the timeliness of your message. If you choose to use e-mail, be sure to include your contact details so that the office is able to respond to you.

3. Making a Telephone Call

A telephone call can be effective when you want to record your views on an upcoming vote or when your opinion can be stated very concisely. Calls are not an effective way to educate legislators, nor do they provide the opportunity to demonstrate your expertise on an issue. In most cases, staff handle the calls and their goal is to simply make a record of the call.

Helpful Tips:

- State your views clearly and succinctly – time is precious for everyone
- Conclude your message with a request for action
- Be prepared to leave your contact details

4. Face to Face Meetings

Elected officials often schedule community meetings to hear from constituents about local concerns. Many advocates are also active in their communities in other ways, crossing paths with elected officials at dinners, receptions, or other events. Take every opportunity to speak

with and develop a relationship with those who represent you. Although you may not be able to discuss issues at every event, you may have a moment to ask the official if you might meet with him/her in the near future to discuss your concerns.

How To Contact Your State Legislator

There are 30 Legislative Districts in Arizona. Each District has one State Senator and two State Representatives. They are easy to find and contact. (NOTE: We have two US Senators and eight US Representatives, so you belong to both a Congressional District and a State Legislative District. Be careful not to confuse State Legislative Districts with US Congressional Districts).

Please let us know how we can make this report more useful for you (lclausen@azdes.gov).
